

OUR UNIVERSE ACCIDENT **OR** DESIGN ?

A Christian talk by...

Prof. David Block

In this talk, Professor David Block tackles one of the most profound questions in science: how did the universe come to be? The answer to this question is a mystery that has eluded scientists for centuries. But is there indeed evidence that suggests the universe was not formed by accident but rather designed? This incredible talk is both a visual and an intellectual feast. Many who have attended it agree that Professor Block unlocked mysteries of the universe that left them spellbound in Awe.
